

GOVERNOR'S VETO
OFFICIALS TO ASSESS
A. P. OFFICIAL,
A. W. COPP, DIES

Validity of Governor's Action in University Matter Is Questioned.

Austin, Tex., June 12.—It is now quite apparent that the courts of Texas will have to finally adjudicate the question of the validity of the veto by Gov. Ferguson of the appropriation made by the legislature for the support and maintenance of the University of Texas for the next two fiscal years. Just in what shape this proposition will reach the courts has not as yet been definitely indicated, but it more than likely is to be through the state supreme court, this board which is composed of the governor, state treasurer and controller is scheduled to meet during the month of July to fix the state tax rate and it will have to determine whether or not the university shall be taken into consideration in fixing the rate.

Mandamus May Be Filed.
It is even now reported that mandamus proceedings may be instituted against this board direct to the supreme court to compel the board to take into consideration the appropriation for the university in arriving at an adequate rate for the support of the university. It is the event the supreme court decides that the veto stands, then the university will not be considered in the tax levy, while on the other hand should the court agree with the opinion of the attorney general, then the board will be required to take the university into consideration.

Tax Increase Likely.
The present state ad valorem tax rate is 20 cents on the \$100 property valuation, the pension tax is 5 cents and the school tax is 30 cents. In order to take care of the many appropriations made by the legislature it is freely predicted that the ad valorem tax rate will be increased to not less than 50 or 55 cents.

Visiting Sugar Men Are
Shown El Paso and Juarez

Sugar magnates from Colorado paid El Paso a brief visit Monday and Tuesday. They were Fred Noble, general manager of the American Sugar Beet company plants in the Arkansas river valley, and T. E. Devine, legal adviser for the company. During their visit here they were taken for a sight-seeing tour of El Paso and Juarez by W. B. Mandeville, banker of Las Cruces, and W. G. Roe, of El Paso.

"This is my first visit to El Paso for six years," said Mr. Devine, "and I am astounded at the wonderful growth of the city. Your buildings and homes are springing up more rapidly than I thought possible. This is Mr. Noble's first visit here and he has been much impressed by the progressive spirit of the city."

The nature of their trip to El Paso, Mr. Devine explained, was a matter of private business. The two men have been friends with Mr. Mandeville for 20 years, and they had a reminiscence of the old days. Mr. Devine's home is at Pueblo, Colo., and Mr. Noble lives at Rocky Ford. The three plants which he manages are at Rocky Ford, Las Animas and Lamar, Colo. Tuesday afternoon the visitors went by automobile to Las Cruces with the intention of catching a train there tonight to return to their homes.

NO WATER TO FIGHT FIRE;
SOLDIERS FIGHT WITH BUCKETS

Fire totally destroyed the tent home of Mrs. Eugene G. Schenberg, in the rear of 2500 Grand avenue, Monday evening about 10 o'clock. Mrs. Schenberg and her five children lived in the tent house and had retired to their beds in front of the fire. Schenberg is leader of the 15th cavalry band, now stationed in the Philippines, and is expected home in a few weeks. All of the furniture was burned and the only thing saved was some money left on a table when the fire started.

The fire also burned the sheds and back fence of the residence of J. P. Garland, 2800, Fort Boulevard, in the rear of the Schenberg home, and the fence and chicken house, also some chickens, belonging to Dan Hammond, at 2815 Grand avenue, adjoining the Schenberg place on the east.

Soldiers from nearby camps responded to the alarm of fire and, with buckets, carried water from nearby hydrants and prevented the houses catching fire. Squads of four men each were detailed off to guard houses from rising embers for several blocks about.

The water pressure was very poor and, after a number of the hydrants had been started running, it was often with great difficulty that the soldiers could draw a bucket of water.

ZIEGFELD LOOKING AT DAM
AND BOATING ON BIG LAKE

Making the trip by automobile, W. K. Ziegfeld, New York theatrical producer and motion picture magnate, who is contemplating establishing a film city in El Paso, left Tuesday morning in company with George H. Clements, secretary of the chamber of commerce, and C. E. Patton for Elephant Butte dam. Mr. Ziegfeld and party will spend the day there.

A trip of inspection will be made through the dam and a boat ride taken in Lake E. M. Hall, the largest artificial lake in the world. After completing the visit Mr. Ziegfeld will return to El Paso and Wednesday will return east. Before leaving he is expected to confer with the board of directors of the chamber of commerce and will then inform them whether or not El Paso has met with his requirements for his film city.

72 IN SPECULATOR MINE
STILL UNACCOUNTED FOR

Butte, Mont., June 12.—Rescue work in the Granite Mountain and Speculator mines of the North Butte company, which were swept by fire last Friday, had progressed to such an extent today that it was thought probably every level of the company's property except those below the 2500 foot level, which have been flooded with water, would be explored before nightfall.

The latest recapitulation by company officials and the county coroner showed 50 identified dead; 22 unaccounted for and the total known dead was placed at 98. Nineteen men were recovered late last night, making a total of 107 taken from the mine thus far.

WILL GROW CROP OF BEANS
WHILE THEY DIG FOR GOLD

E. W. Chess and John Scheller have just returned from Pearce, Ariz., where they purchased 160 acres of farming land which they expect to plant in beans as soon as possible. While in Pearce each staked a gold claim, which they believe to contain very good grade of ore as they are in the same vein as a mine now operating. They are in the city to purchase implements for their mine and farm.

A. P. OFFICIAL,
A. W. COPP, DIES

Yields to Complication of Diseases; Well Known in El Paso.

Washington, D. C., June 12.—Arthur W. Copp, superintendent of the southern division of the Associated Press, died here today of a complication of diseases. He was 45 years old.

Before coming to Washington, Mr. Copp has been superintendent of the western division at San Francisco, and before that had served the Associated Press in many places in many capacities.

Mr. Copp's last work was, perhaps as he might have wished it, for, when a volunteer was called to sail on the American liner St. Louis, as the first armed American ship to cross the submarine zone, he responded and made the voyage for the Associated Press. Soon after he returned to America he was taken to a hospital.

Twenty years before, as an Associated Press correspondent, he had served in Cuba during the Spanish-American war.

Mr. Copp was born in Madison, Wis., where he will be buried. He was unmarried.

Mr. Copp was well known by many El Paso people. He visited El Paso several times during Mexican troubles and "covered" the Madero revolution for the Associated Press. He was the guest of the banquet given in May, 1911, by the chamber of commerce to correspondents, and which was attended by the guests of honor, local newspaper men, high army officers and prominent citizens, and was a contributor of verses entitled "An Ode to the Greaser," printed in the Juarez-El Paso Starburst, issued on that occasion.

Waltz, One Step and
Fox Trot Still in Favor

New York, June 12.—The waltz, fox trot and one-step will continue to hold sway at the "big three dances," according to dancing instructors here attending the fourth annual convention of the International Association of Masters of Dancing. While the instructors are sure of the performance of the three dances, it was announced today that those of the guests of the convention which will continue throughout the week, many new steps will be demonstrated. About 400 members of the association are attending the convention.

ONE OF LANGHORNE BEAUTIES
IS BRITISH BANKER'S BRIDE

London, Eng., June 12.—The Morning Post says Mrs. Reginald Brooks, daughter of C. P. Langhorne, of Greenwood, Va., was married quietly in London last Saturday to the Hon. Robert H. Brand, partner in the banking firm of Lazard Bros. and company.

Mrs. Brooks was formerly Phyllis Langhorne, one of the five sisters who were noted for their beauty, the others being Mrs. Waldorf Astor, of London; Mrs. Moncreux Perkins (deceased), of Richmond, Va.; Mrs. Charles Dana Gibson, of New York, and Mrs. Paul Phillips, of London. Mrs. Brooks is a cousin of Lieut. Col. George T. Langhorne, Eighth cavalry, Fort Bliss, Texas.

BAND TO PLAY EARLY FOR
RALLY ON SQUARE TONIGHT

The Mexican-American band will start playing tonight at 7 o'clock for the Baby Sanatorium rally at Cleveland square. An elaborate program will be presented, and refreshments will be served by a group of attractive young women. The entire proceeds will go to the Baby sanatorium at Cloudcroft. The general public is invited by the Equal Franchise league, in charge of the rally.

It pays to paint with Patton's San Proof Paints. Lander Lumber Co.—Adv.

OPPOSES TRADE
WITH THESE FIRMS

Redfield Urges Importers Not to Deal With South American Germans.

New York, June 12.—In correspondence made public here today, between William C. Redfield and John O'Donohue's Sons, coffee dealers, the secretary of commerce advises the firm not to continue commercial relations with business interests in Central and South America and the United States which "are presumably controlled by subjects of Germany or who are subjects of her allies," pending action by congress on the so-called trading with the enemy act. The coffee firm had informed the secretary of a shipment received from a certain house with a German name in Venezuela for sale here on a commission basis. The secretary was asked "whether or not it would be an act of disloyalty" if the proceeds were paid to the Venezuela firm. Secretary Redfield replied advising withholding payment which he said should be disposed of as pending legislation if enacted, may prescribe.

WORKMEN'S INSURANCE
IS URGED AND OPPOSED

Pittsburg, Pa., June 12.—Greater intensity of production required for war needs will prove the desirability of establishing workmen's health insurance as well as strengthening workmen's compensation laws, in the opinion of Dr. John E. Andrews, of New York, secretary of the American Association for Labor Legislation, expressed in an address today before the National Conference of Charities and Correction.

"Health insurance is not charity," declared Dr. Andrews, "it is social justice. The responsibility for sickness is shared by industry, the worker and the state and all three will share in the benefits of public health." That the United States must be kept safe for democracy was the plea of A. E. Forrest of Chicago in an address today before the conference. Mr. Forrest appeared as a critic of social insurance. He took issue with Dr. Andrews and said:

"When social insurance is established in the United States freedom of individual action will cease. The tendency of health insurance, even of the commercial variety, well safeguarded, breeds malingerers, as evidenced by actual experience."

EL PASO'S NEPHEW IS
GEN. PERSHING'S ADJUTANT

Among the officers who accompanied Gen. Pershing to Europe, was Col. Benjamin Alvord, nephew of H. E. Mussey, of 512 Mundy avenue. Col. Alvord, who returned from a second tour of duty in the Philippines just in time to serve as one of the pallbearers at the funeral of his former commander, Gen. Funston, is a son of the late Benjamin Alvord, who was paymaster general of the army back in the 70's. He has a son bearing his own name, now preparing to enter the United States military academy at West Point, making three of the same name and line to enter that institution. Col. Alvord's wife is a sister of the wife of Gen. John F. Morrison, who has many friends in El Paso. As an adjutant, Col. Alvord has a former El Pasoan, Maj. John L. Hines, as assistant.

GOAT RAISER DISPOSES OF
FERTILIZER IN CALIFORNIA

Silver City, N. M., June 12.—Several hundred tons of fertilizer have been gathered from goat droppings and shipped to California men by W. A. Heather, who owns a large Angora goat ranch near Beaumont, Tex. The price paid was encouraging, it is said, to goat raisers, who regard the product as a profit. Similar in nitrogenous quality to bat guano, the fertilizer is used for truck gardens in California.

55 EXAMS HELD
AS PLOTTERS

Are Indicted on Charges of Seditious Conspiracy Against the U. S.

Dallas, Texas, June 12.—Charged with seditious conspiracy against the United States, 55 persons, mostly members of the Farmers' and Laborers' Protective association, were indicted by the federal grand jury here yesterday. Some of those indicted are in jail, while arrests are pending in the other cases.

A separate indictment was returned against W. A. Bergfeldt, member of the Farmers' and Laborers' Protective association, charging him with threatening the life of president Wilson. Bergfeldt, until recent arrest, was a rural mail carrier at Haskell, Texas.

The indictment alleges the defendants conspired and agreed among themselves and with "various persons unknown" to oppose by force the authority of the United States in raising an army to prosecute the war with Germany and that in a certain section of Texas, a man who is named in the indictment, organized and drilled a company of men in military formation with the intention of using force to defeat the selective draft.

All those indicted and other persons in various sections of the state, another count recites, armed themselves and prepared in various other ways to oppose officers and agents of the government.

It is alleged that the men indicted conspired to destroy railroad tracks and bridges as well as telegraph and other means of communication "to restrain commerce between the various states at a time when a state of war existed between the United States and Germany."

It is believed that most of the men are already in jail. United States attorney Wilcox M. O'Dell said many additional indictments could be expected by grand juries in various localities against individual members of that organization.
